

# June: WEEK ONE

## MAKING MEMORIES

### THE AGENDA:

*What are some of your most vivid memories? Are they good or bad memories? What are your plans for this summer vacation? What types of memories will you make? What are some of our favorite memories and inside jokes we've had working together this year? What are some good ways to remember our favorite times?*

◇ Take photos of each other (or bring ones you have taken throughout the year) and make a collage or memory book of fun times you have had together. Include funny moments, favorite quotes, and make two if possible so you can each take one home. Autograph each other's memory book with a special message.

◇ Walk around the school grounds or play in the playground.
